Safety Steps™

The Little Giant Safety Step™ is a unique combination of strength and simplicity featuring slip-resistant steps that give you unmatched comfort and stability. The Safety Step™ is constructed with super-strong, lightweight aerospace grade aluminum and operates so easily that you can open and close it with one hand. Its slim storage depth (12cm) will let you store it just about anywhere. Engineered for professional and industrial use, the Safety Step™ is tested to hold up to 150kg on each step. This tough, compact stepladder can handle just about any task, from the lightest office chore to the heaviest industrial job.

- Open and close it with one hand
- Tough compact construction for industrial use
- Folding safety bar with integrated tool tray (on 3 & 4 tread only)
- Tip & Glide™ wheels for easy movement around site
- Save space and store in only 127mm of space
- Large 360mm deep 'platform' style treads
- EN14183

Jumbo Steps

The new Little Giant Jumbo Step is the ultimate combination of light weight, stability and strength. The Jumbo Step's 21.5cm wide, slip-resistant treads and stair-like design provide unmatched comfort and stability. Ideal for jobs that require both frequent climbing up and down, as well as those that require long periods of standing. The Jumbo Step design makes working at heights as comfortable as standing on the ground.

- Wide treads for greater comfort
- Handrail includes built in comprehensive tool tray
- Handrail folds down to use as a simple hop-up
- Step folds for easy storage
- Large moulded feet perfect for range of flooring types
- EN14183

TRAINING ACADEMY

Through our Working at Height Training Academy, we offer a selection of safety courses, ensuring we not only sell safe products, but also instruct operatives how to use our products safely. Most of our courses are certified by nationally recognised bodies, such as The Ladder Association, PASMA and St John's Ambulance.

Please see page 126 to 127 for more information.
