<sup>2</sup> Treads includes top platform step/top cap tool tray tread

## Specifications

- Warranty: 5-year
- Max Load: 250kg
- Standard: BS EN1004
- Material: Aluminium
- Commodity Code: 76169990
- Country of Origin: GB
- Recommended Usage: Intensive

## Common Dimensions

- Platform Tread (LxW): 2000 x 700mm

## Availability & Delivery

Non-stock item. Delivery up to 7 days.

## TB Davies 2.0m CentreFold Work Platform & Guardrail

---

### Product Description

The heavy-duty CentreFold is a work platform that is easy to build and ideal for one-man operation. Supplied as a base unit plus guard rail to give 6 optional platform levels between 0.2 – 1.7m. The CentreFold comes in two sizes, a 1.5m narrow or 2.0m wide version. Note that the 2.0m wide version has an increased safe working load of 250kg. Both versions are extremely portable and will fit when folded, through standard doorways to make it easy to use in the tightest of spaces. Large industry rated 5” castors that are lockable, help improve the transport of the tower across smooth or rough surfaces. The number of components is greatly reduced by the unique folding mechanism that reduces the chance of leaving items at site.
