

TB Davies Light Duty DIY Scaffold Tower

[Representative image of product]

The DIY Light Duty tower is a strong but lightweight aluminium scaffold tower ideal for jobs around your home or garden. Perfect for jobs that need you to work at height, especially where the jobs require both hands like painting or replacing guttering. Easy to erect and simple to move around, just tilt it back and push around on its wheels. Easily store in your garage or shed when not in use. The base unit has a working height of just over 4m, so the upper windows of your home will be well within reach. An optional extension pack will enable you to add a further 2m in height to your scaffold tower. Adding this extension pack will bring the roof line, soffits and guttering well within reach.

Features

- Lightweight, easy to push around on wheels
- Fixings do not require tools, so set up is quick
- Ideal for occasional use around your home or garden

Product Dimensions

SKU	Platform Height	Overall Height (mm)	Approx. Working Height ¹ (mm)	Stabiliser Length x Width (mm)	Nett Weight (kg)
3010-070	2430	3700	4030	n/a x n/a	34.4
3010-071	4500	5700	6100	n/a x n/a	33.0

¹ Working height is calculated as 1,600mm plus platform height or last climbing tread, whichever is appropriate. Ladders set at an angle of 75° degrees.
