

TB Davies HUSKY Aluminium Trade Extension Ladder

[Representative image of product]

Product Description

For professional & trade use. Ideal if you are looking for a quality ladder to use around the home or business. This professional-grade extension ladder is manufactured to current EN131 Professional standards and has a weight rating of 150kg. Our ladder includes a free stabilising bar that requires fitting before first use. These lightweight 2 and 3-section ladders are easy to carry around. They are made from super strong aluminium, giving you a stable platform that feels safer to work from. The 3-section ladders benefit from being able to convert into a freestanding ladder. This is ideal for when there is nothing to lean your ladder against, for example, painting fragile soffits and guttering. The rung guides are manufactured from steel for maximum strength and coated with Nylon for easier, faster action when extending or storing your ladder. The ladder has thicker box section stiles than cheaper alternatives, which makes the ladder stiffer, less likely to twist and longer-lasting. It is supplied with a standard 3-year warranty. Please note that due to the recent changes in standards, the sections of this ladder no longer separate.

Features

- Lightweight aluminium ladder with steel guides for maximum strength
- Slip-resistant high traction square 30mm rungs
- Stabilising bar supplied with ladder - requires fitting before first use
- Use as a freestanding step ladder
- Easy to carry and store when not in use
- Fitted with oversized anti-slip rubber feet

Specifications

- Brand: TB Davies
- Warranty: 3-year
- Max Load: 150kg
- Standard: EN131 PROFESSIONAL
- Material: Aluminium
- Commodity Code: 76169990
- Country of Origin: UK
- Recommended Usage: Regular

Common Dimensions

- Rung Depth: 30mm
- Distance Between Rungs: 280mm

Packaging Material

- None

Availability & Delivery

- Stock item. Delivery next day.
