

VERTI Steel Ladder

[Representative image of product]

Product Description

Experience unparalleled durability and functionality with our top-tier mixed steel/aluminium ladder, expertly crafted for the most challenging worksites. Offering versatile configurations, this ladder is designed to enhance stability and safety in demanding environments. With a range of 3 x sizes available, from 3m to 5m, it easily caters to various operational needs, providing access to heights up to 5.0m meters.

Not only is this ladder built for strength, but it also boasts an advanced epoxy coating on the steel components, ensuring exceptional protection against rust and corrosive materials like cement. This feature guarantees a longer lifespan and maintains the ladder's integrity and appearance in harsh conditions and meeting EN 131 safety standards, providing you with the assurance of a product that prioritises your safety without compromising on performance.
