

## Little Giant Ladders Sure Step

[Representative image of product]

### Product Description

**Quick Setup:** No hassle, no messing with latches and no pinched fingers. The Sure Step's nylon spreader straps let gravity do the work: just grab one of the top steps and let the stool fall open or closed.

**Comfortable to straddle:** The Sure Step supports a straddle position, making it easy to change working directions. (Shoes should not exceed 13 inches for use in this position)

**Full box steps:** The Sure Step features treaded full-box steps that are climbable on either side. Plus, the split top step means you have a wider, more stable standing platform when you're furthest from the ground.

**Oversized Feet:** Set up anywhere with confidence. Slip-resistant, heavy-duty oversized feet keep the Sure Step exactly where you put it, whether that's on solid ground or a grated surface.

**Non-conductive Fibreglass.** Made from durable, lightweight fibreglass, this step stool lets you work fearlessly around electricity.

### Features

- Quick and easy to set up
- Fits the smallest storage corners in your van or garage
- Non-conductive, so ideal for working around electricity
- Lightweight and easy to operate from
- Large oversized feet are perfect for secure ground contact
