

TB Davies BALUSTRADE Loft Hatch Kit

[Representative image of product]

Product Description

Protect your loft space and prevent falls through the loft hatch using the TB Davies Loft Balustrade kit. It's quick and easy to install and is ideal for loft hatch sizes up to 1.4m in length. The powder-coated steel uprights bolt directly to the loft floor using the screws/bolts supplied. Once in place, screw the wood sections to create a secure railing. The balustrade offers a secure hand-grip when climbing in and out of the loft space. Further protection from falling storage boxes that might be stacked close to the loft opening. The balustrade will help prevent these from dropping into the loft opening.

Features

- Steel uprights & wooden balustrade create a solid frame
- Simple to erect and safeguard your loft opening
- Works with any loft hatch
- Suits loft openings between 1.4m long x 0.7m wide
- All fixings supplied to suit wide range of surfaces
