

LADDER RACK INSTRUCTIONS

1. Choose a safe, convenient location for ladder storage. Position the Ladder Rack at the comfortable height, centering mounting holes on studs with 16" centers.
2. Tighten screw through one of the top corners of the Ladder Rack into the center of the first stud.
3. Rotate the Ladder Rack and make sure it is level, mark and insert the second screw.
4. Fasten the Ladder Rack to the wall with the remaining two screws.

NOTICE:

Little Giant Ladder Systems shall not be responsible for any Ladder Rack failure due to improper installation or wall failure. If Ladder Rack cannot be installed as per instructions, see that installation conforms to local building codes.

SUPPORTS 75 lbs
